

# Maximize Productivity for Your Mobile Workforce

Small businesses with hourly on-the-go employees can thrive with mobile time and labor. Discover the mobile solution of choice for home health, field service, direct sales, and delivery.

## 1 BANISH BUDGET-KILLING OVERTIME

Every mobile punch posts time and location directly to the timecard in real-time. Pay less for labor and reduce your compliance risk by eliminating unplanned overtime.

## 2 FREE YOUR BUSINESS FROM PAPER TIMECARDS

Your managers have better things to do than correcting timecard errors. Record time on the spot to avoid transcription mistakes.

## 3 TRACK TIME AND LOCATION FOR EVERY SHIFT AND EVERY PUNCH

Track your mobile employees with GPS for extra assurance. Set alerts for out-of-bounds and out-of-schedule punches.

## 4 TAKE A VACATION FROM PTO PROBLEMS

Calculate PTO automatically in real-time as employees clock in and out for shifts. Ensure accurate accruals and time-off compliance. (We support complex policies!)

## 5 PROVIDE MOBILE HR FOR YOUR MODERN WORKFORCE

Keep employees up-to-date with anytime access to schedules, timecards, and PTO. Employees and supervisors handle requests and approvals in a convenient mobile app.
